# Solving tomorrow's design challenges

Anglia's extensive product range has been further strengthened by the addition of AVX, a leading worldwide manufacturer of established and high reliability passive and interconnect components.

## Why AVX?

AVX products serve a broad range of markets including: computer, telecommunications infrastructure, wireless, industrial, automotive, consumer, high reliability, military and medical sectors.

## Designing for the future

AVX research and products are critical to new "green" technologies designed to conserve existing energy resources and to create dependable, affordable systems for using renewable energy sources, such as wind, sun and water. Reliability of AVX technology will ensure that this generation – and generations to come – will benefit from these green technologies. AVX components are at the forefront of designs harnessing the power of alternative energy sources, such as wind farms, solar power generation, hybrid and electrical vehicles, as well as trams and high-speed trains.

# Reliable AVX Technology

## Capacitors

Supercapacitors, Ceramic, Film - Commercial/Power, Glass, Niobium Oxide, RF/Microwave, SLC/MOSCap, Tantalum

## Inductors

Tight Tolerance Thin Film, Accu-L<sup>®</sup> SMD High Q RF Inductors

## Circuit Protection

MLV Transient Voltage Suppressors, NTC Thermistors, Thin-Film Fuses

## Filters

EMI Surface Mount, EMI Thru-Hole, Feed through Devices, SAW, Thin-Film Low Pass

## Couplers

Thin Film Directional, Couplers

## Military Products

Connecting Systems, Ceramic, Glass and Tantalum Capacitors

## Timing Devices

Clock Oscillators, Crystal Applied Products, MHz/kHz Quartz Crystals, Resonators

## Connectors

2mm Hard Metric, Automotive, Battery, Board-to-Board, Wire-to-Board, Card-edge, DIN 41612, FFC/FPC, H Government, Memory Card Connectors, PolyTect<sup>™</sup> Soft Molding, Telecom, Varicon Rack and Panel

## Integrated Passive Components

Thin-Film IPC, Capacitor Arrays, Dual and Triple Resonance Capacitors

## Piezoelectric Acoustic Generators

Shock Sensors, Piezoelectric Acoustic Generators, Piezo Buzzers

## Module Devices

Antenna Switch Modules, Front End Modules, Bluetooth<sup>™</sup> Modules, GPS Modules
